

SALTA! *Jump into Spanish* program

Kidsports Academy works in partnership with the "Salta! Jump into Spanish" program.

This program enhances the top-notch education children already receive here at Kidsports Academy. Children learn Spanish via a thematic approach while learning new essential vocabulary words weekly. This program offers an effective way for children to successfully learn to be fluent while interacting with friends and having fun! What makes this program special is that the children are unaware that they are learning a new language because they are engaged and having fun while they learn!

Our full day preschoolers participate in the "Salta Schoolhouse" program, and our Kindergarten students participate in the "Salta L.E.A.P. (Literacy Educational Advancement Program) Program".

Our students participate in this program once a week. The preschoolers receive 45 minutes in age appropriate Spanish instruction, and the Kindergarteners receive an hour of instruction. This program comes at no additional charge. It is our way of making sure that the children receive the head start they deserve.
